Hazama Kenta

Hello, everyone. I am Hazama Kenta and an English teacher in this school. Today, I will talk about the first term review. From April to July. In April, I came to this school. That was my first day as a teacher and as a member of society. I was so nervous. It was a day mixed with hopes and fears. I will never forget that day. The four months that began there, I tried anything to gain experiences. Of course, not all went well. I had a large number of difficulties. English class, club activity, other tasks, and so on. But, I didn't stop thinking. I took many trials and errors. When I have troubles, I ask a lot of questions around me. I made an effort not to leave things I didn't understand as they were. As a result, now, I can stand here with pleasure and a sense of achievement. I am just inexperienced person now. But, step by step, I grew up. In this summer vacation, I will grow even more. How about you? I am looking forward to see you as you grow. Thank you for listening.
